SECTION III

TEST EQUIPMENT AND SPECIAL TOOLS

3-1. TEST EQUIPMENT.

3-2. The test equipment required for checkout and trouble analysis of the launch complex facilities console is listed in figure 3-1. This test equipment is used in conjunction with the checkout and trouble analysis procedures described in Section VII of this manual.

3-3. SPECIAL TOOLS.

3-4. The only special tool required for field maintenance of the console is the module extractor (figure 7-18), which is located on the back panel of the console.
